**THE INVALID'S FRIEND.**

**HOLLOWAY'S PILLS.**

**Nervous Disorders.**

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of sleep. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

**Mothers and Daughters.**

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

**Disorders of the Kidneys.**

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they are afflicted with stone or gravel or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

**The Stomach out of Order.**

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of roas—in fact they never fail in curing all disorders of liver & stomach.

**Bronchitis, Diphtheria, Coughs, Colds.**

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

**Debilitated Constitutions.**

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

**Biliousness, Loss of Appetite, Headache and Lowness of Spirits.**

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague Female Irregularities Retention of Urine

Asthma Bilious Complaints Fevers of all kinds Scrofula, or King's

Blotches on the skin Fits Gout Sore Throats

Bowel Complaints Head-ache Indigestion Stone and Gravel

Colics Constipation of the Bowels Inflammation of the Liver Secondary Symp-

Consumption Jaundice Liver Complaints toms

Debility Dropsy Lumbago Piles Rheumatism

Erysipelas

NEW WESTMINSTER, TUESDAY, APR. 4, 1865.

A STARTLING DISCOVERY.

Our local contemporary has just discovered a mare's nest. In his yesterday's edition we find an article devoted to the advocacy of Mr. Waddington's supposed claim against the Government of this colony, arising out of his crazy Bute Inlet enterprise, which we commend to our readers as a literary curiosity. It is not usual to puff opposition wares; but the article in question is really worth a "bit." We hope the Governor has given the article a careful perusal, and that, having done so, His Excellency understands the difference "twixt tweedledum and tweedledee." We venture also to hope that Mr. Waddington feels satisfied with the zeal, if not with the discretion, of his organist. The Government and the public must feel grateful to our contemporary for removing the scales from their mental vision. The Legislature has at length disposed of the ridiculous affair, and the old gentleman can no longer hope to mulet the colony in the price of his folly. He and some of his false friends threaten to seek redress at home; but we can scarcely imagine that any one would be found willing to throw away money upon so utterly hopeless a cause. The old gentleman is entitled to some sympathy, inasmuch as we conceive him to have been, to some extent, a tool in the hands of designing men. He has played the cat for the monkey, and he has got his fingers burned for his pains. But that is no reason why our Government should pay away \$50,000 of the public revenue for what is not worth a crooked sixpence to the colony, and at the same time create a bad precedent. We must be just before we are generous. There is plenty to employ the revenue in without paying the expense of Victoria speculations. Mr. Waddington undoubtedly has a claim, in equity if not in law, against the Victoria abettors of the ruinous undertaking, and to them we beg now to refer him. We have been denounced as a heartless and implacable enemy for no other reason than because we warned the old man of his folly, and treated the scheme as it turns out to have deserved. Had our advice been taken instead of that of those whom he accounted his friends, it would have been better for him to-day. The affair is done with now, however; and let us hope that Mr. Waddington has come out of it a wiser if not a richer man.

TRIAL OF THE INDIAN "SEITZEM."—A special Assize was held on Saturday to try the Chilliwack chief "Seitzem" for the murder of his step-mother, about the 15th March. A Grand Jury was empanelled, and William Clarkson, Esq., appointed Foreman, and a true bill returned. From the evidence, which it is unnecessary to detail here, it appears that the prisoner killed the woman with an axe, and immediately said to an Indian "Come and see; I think I have killed the woman." This Indian went with him into the lodge, where he found the woman lying dead, with blood on her face and some blood on an axe which was lying on the ground close by. The prisoner told him he thought the axe was a piece of stick when he struck deceased with it. There was little other evidence placed before the jury. The Attorney-General, in opening the case, read a voluntary confession made by the prisoner, from which it appeared that he and the woman had been quarrelling, and he struck the blow in the heat of passion. He also expressed his conviction that she had poisoned his father. This confession, not having been regularly put in as evidence, was not available for the jury. Mr. A. R. Robertson defended the prisoner, and earned high encomiums by the tact and ability which he displayed in conducting the case, as well as in his address to the jury. Verdict, manslaughter—Sentence, seven years' imprisonment, with hard labor.

FROM HARRISON LAKE.—Capt. Fleming, of the str. *Lilloet*, arrived from Harrison on the *Hope* yesterday. He informs us that the steamer will be ready to connect with the *Alexandra* as soon as she goes up. He has been engaged in clearing the channel of snags.

TELEGRAPHIC.—The line was working as far south as Seattle yesterday, but the wire being down beyond that point no news has yet been transmitted.

THE STR. "HOPE" left for Harrisonmouth on Sunday morning and returned yesterday. She brought an express for Dietz & Nelson.

THE "RELANCE" has undergone repairs and is again ready for active service. She will leave for Yale to-morrow.

### Legislative Council.

Monday, April 3rd, 1865.

The House met at 2 o'clock. The minutes of previous meeting were read and confirmed.

#### SUPREME COURT FEES BILL.

This Bill was passed through Committee, and the third reading fixed for Tuesday.

#### WADDINGTON'S PETITION.

Hon. Mr. Holbrook moved his resolution for the consideration of Mr. Waddington's petition. He said that he had carefully read the correspondence laid upon the table by the Hon. Colonial Secretary, and could not see any ground upon which Mr. Waddington could found a claim against the Government of this colony. He thought it would not be right for the Council to throw the whole onus of the matter upon the Governor. He thought the House should express an opinion upon the subject. The trail made by Mr. Waddington was of no earthly use to the colony; but even if it were it would not be worth more than \$200 a mile, as that was about what it costs the Government to make trails. He believed there were professedly 35 miles made, which could only be worth \$7,000 at best; yet \$50,000 is asked for it. On behalf of his constituents he wished to say that he did not think the people of the colony would be willing to have the trail paid for out of the public funds. The hon. gentleman also alluded to the fact that the Bute Inlet scheme had its origin in a desire on the part of the people of Victoria to settle public mind with respect to New Westminster, and said that Mr. Waddington ought to have divided the responsibility with those who urged him on, instead of shouldering the whole undertaking himself.

The Hon. Attorney-General said that when Mr. Waddington entered upon the Bute Inlet enterprise it was against the expressed advice of the late Governor, Sir James Douglas, who had forewarned him that there would be greater geographical difficulties than he anticipated to contend with, and also that trouble with the Indians was to be apprehended.

The Hon. Mr. Cornwall moved the following resolution: "Resolved, That this House, while it deeply regrets the great loss sustained by Mr. Waddington owing to the failure of his speculation, is not of opinion that his case calls for alleviation or compensation at the public expense." The hon. mover supported the resolution in a few sensible remarks, giving it as his opinion that the petition could not be complied with without doing an injustice to the colony.

Hon. Mr. Ball seconded the resolution, and in doing so expressed his concurrence in the remarks which had been made.

Hon. Colonial Secretary regretted the absence of the hon. member for Cariboo East, who had seconded the resolution bringing on this discussion, and who had spoken pretty warmly upon it at the time, but was not in his place now to express his views. The question before the House resolved itself into this: If the Government took the road off Mr. Waddington's hands and paid him for it they would be equally bound to buy up every other unsuccessful enterprise in the colony. He could not see that Mr. Waddington had any claim whatever upon the Government; and as for buying the trail it would be of no use, for if ever the Government made a road from the seaboard to the interior of the colony it would certainly not be by the way of Bute Inlet.

The resolution was passed unanimously.

#### MARRIAGES BILL.

The House resumed in Committee of the Whole upon this Bill. Hon. Mr. Haynes in the chair. The committee rose and reported the Bill passed. The report was adopted, and the third reading fixed for Thursday.

#### LAND BILL.

The Hon. Attorney-General asked further time for the second reading of this Bill, as it had not yet been printed. Hon. Mr. Cornwall thought that in order to save time the Bill might be read a second time now, and committed for some future day. The Bill was accordingly read a second time, and committed for Thursday.

#### BANKRUPTCY BILL.

The House went into Committee of the Whole upon this Bill. Hon. Mr. Ball in the chair. Several clauses were passed, when the House adjourned till 3 o'clock to-day.

#### Later from the Interior.

#### Jottings by the way.

At Yale the weather had been really warm for some days, with warm night rains, causing the snow to melt very fast. The season for avalanches may be considered over, as the snow on the mountain sides has settled too much to slide now. The water has risen a foot in the canyons.

The road to Lytton is lined with Indians with packs on their backs, reminding one of the early days of foot-trails. Saddle-horses and pack-trains will probably be on in a very few days. Mr. Spence, the Superintendent of the road, was to have commenced on the 31st ult., with a force of 150 men to clear the way through the canyons. The job will probably not occupy more than ten days. Edwards had reached Boston Bar in safety with his boats.

There is a surprising amount of mining going on in the almost empty bed of the Fraser. Chiamen between Yale and Lytton are earning from \$20 to \$40 a day to the hand. This is no exaggeration. They have wing-dammed the river at various points. At Yankee Flat no fewer than five wing-dams are working, reminding one of the early days on Fraser river. At Victoria Bar, above Lytton, a company have

15 men at work, and are said to be taking out \$150 per day to the hand. On Mormon Bar, Joe Johnson and James Finney are at work, making \$100 a day to the hand.

At and around Lytton the snow is disappearing fast, and in the Bonaparte country gardening and agricultural operations have fairly commenced.

Two Indians were brought into Lytton the other day and lodged in jail on a charge of killing a number of Mr. Harper's cattle, at Kamloops lake. Between Bonaparte and Clinton the snow had entirely disappeared from the road, and above that it was melting rapidly.

People along the line of road looking anxiously for the Governor's Message respecting the abolition of tolls upon agricultural produce. These tolls in some instances amount to \$40 a ton upon hay!

A strong anti-union feeling has sprung up along the road, and the trickery of Victoria politicians is being better understood.

New diggings are reported to have been struck on the heads of Lowhee and Williams Creeks which are said to be very rich. The discovery has caused much excitement.—The appointment of Mr. Thomas Spence, as Road Superintendent is a most wise and popular one; everyone seems satisfied with it.

#### A TRAVELLER.

#### Later from Cariboo.

By Dietz & Nelson's Express, which arrived on Saturday, we have Cariboo advices up to the 17th ult. Another cold snap—said to be the most severe ever experienced on the creek—had occurred, sending the mercury down to—

congealing point, and completely paralyzing mining operations for the nonce. Several rich strikes are reported. Three firms, Messrs. Oppenheimer, Hoffmaster and Scott, had bought up all the flour on the Creek and at Quesnelmouth, and made contracts for the delivery of the latter on the Creek at 10 cents a pound. This transaction, perfectly legitimate in itself, is likely to exert a serious influence upon the price of provisions, at least until such time as the spring shipments can be got forward.

The following items, supplied by an occasional contributor, will be found more or less interesting:—

#### LITERATURE.

The reading-room, which appeared to have collapsed on the departure of Miss Wilson, has been re-organized. The committee have been very successful in raising subscriptions on the creek. Commissioner Cox, and the other officials at Richfield, purchased from Mr. Moss the whole of the library formerly owned by Miss Wilson, and consisting of some 130 volumes, which they have presented to the reading-room. This liberal donation has given the institution a fresh impetus, and the room now looks as inviting as ever, with the usual supply of newspapers and periodicals. A very instructive lecture on Geology was delivered by Mr. McLaren, B.A., at the reading-room, Cameronton, in explanation of the cleavage exhibited by different rocks, was highly interesting, and should claim the consideration of the practical miner.—A Debating Society meets once a week in the reading-room; the subjects are well chosen and the debates interesting. The question of discussion last Tuesday was the Pen vs. the Sword. Considerable ability was displayed on both sides.

#### DEATH.

A very sudden death, that of Mrs. Winnard, occurred at Barkerville on the 27th February. She appeared in perfect health up to within a few minutes of her death, when a sudden faintness seized her, and before medical aid could be had, which was almost immediately, she had breathed her last. Drs. Bell and Chipp were called in, and these gentlemen were of opinion that deceased came to her death from disease of the heart.

#### ACCIDENT.

A severe accident happened to Mr. G. Hodgkinson, a Canadian. While chopping wood a few days ago he cut his foot a little below the instep, dividing the bones of the four smaller toes. Dr. Chipp has him in charge, and he is progressing favorably.

#### THE WEATHER.

During the last days of February and up to the 9th of March, the weather was intensely cold,—colder it is said than ever known on the creek before. The Mercury was frozen, and miners crowded round the big stoves in the public houses, even spending the night there in preference to returning to more isolated quarters in their own cabins. All work was, of course, suspended, and those who had recently been taking out good pay had a regular jollification. The snow and ice in Cameronton is from 2 to 3 feet above the floors of some of the saloons and stores, and in order to guard against being carried down to Marysville by the spring freshet, those more immediately interested have raised a subscription to assist in digging a trench to divert the expected flood.

#### THEATRICALS, COMMERCE, WHISKEY AND BEEF.

A new saloon is in course of erection in Barkerville, in which it is intended to give Theatrical entertainments. It is to be opened on 1st April by Messrs. Aitchison, Billy Robinson and Jim Wood, and promises to be a great success. Mr. Stroness is about to open a store in the Cariboo Saloon. Charley Taft has fitted up a new butcher shop in Middle Town. Several stores and saloons are being erected on Cunningham Creek.

#### SPECULATION IN FLOUR—RISK IN GRUB.

A most important occurrence has just taken place in the shape of a flour speculation. Some of our merchants have for about three weeks back been engaged in quietly securing possession of all the flour. Three store-keepers had a race to Quesnelmouth the other day, the goal being the first in to buy up as much flour as he could, now stored there. They arrived neck and neck, when it would appear they made an arrangement mutually beneficial to themselves, as they hope. The practical effect of this sharp speculation upon the price of grub is as yet matter of speculation. Flour is at present 50c. a pound and it is expected that it will be 60c. to-

orrow; and should they succeed in purchasing the stocks at Lillooet and Lytton miners may have to pay \$1.00 a pound. Other articles will, of course, follow the staple. Candles are \$1.00 to \$1.25, beans are 50 cents and sugar is up considerably.

#### MINING NEWS.

The Nevada Co. have got a prospect of 50c. to the pan. The Australian Co. have struck dirt prospecting 75c. to the pan. It is stated that rich surface diggings had been struck on Hardy's Gulch at the head of Stout's Gulch, but the report needs confirmation. Although visited by many men during the last few days their reports do not agree. Good accounts have come in from Keitley's and from the Horse-fly country. A considerable number of miners have arrived on the creek during the past two weeks, some of whom were as long as 25 days from your city. We have had no express for some time, and are vainly eager to know how the world wags.

#### Ecclesiastical.

The following congratulatory address from the Clergy and Committees of Holy Trinity and Sapperton Churches, was presented to Bishop Hills on Saturday:—

To the Right Reverend the Lord Bishop of Columbia.

My Lord:—We, the undersigned, the Clergy and Church Committees of New Westminster and Sapperton, hail with gladness your Lordship's return to the Diocese, and bless God that He has so mercifully carried you in safety over wide waters, and through vast labors.

We know how untiring have been your exertions at home to further the interests of the Church in these far-off lands, and our joy at meeting you again is increased by the cheering intelligence that your efforts have been attended by success. Accept our heartiest welcome and our grateful thanks.

That God may long spare you to labour amongst us, and that under your pastoral care the pure doctrine and primitive discipline of our Church may be more and more fixed in the hearts of those who make these Colonies their home, is the prayer of,

My Lord,

Your faithful servants in Christ,

H. P. WRIGHT, Archdeacon of Columbia, ARTHUR T. BUSHBY, HENRY HOLBROOK, HENRY REVE, Clerk, ROBERT KEE, PERCIVAL JENNS, Clerk, THOMAS R. HOLMES, H. P. P. CREESE, A. R. HOWSE, CHARLES GOOD, R. WOLFENDEN, W. J. ARMSTRONG, JOHN JANE, R. DICKINSON, JOHN MURRAY, F. G. CLAUDET, THOMAS LOMAX, W. H. McCREA.

New Westminster, 31st March, 1865.

#### The Bishop replied as follows:

VEN. ARCHDEACON, REV. BRETHREN AND GENTLEMEN:—I sincerely thank you for your kind congratulations and welcome on my return from England.

If I have gone through some labour there, in behalf of this Branch of the Church of our Fathers, it is a satisfaction to know that you have approved and appreciated my efforts.

In New Westminster has ever been exhibited much proof of personal interest in the progress of our religion. Your city has been a pattern for zeal, energy and liberality.

But a brief season since your parish church was consecrated to the worship of Almighty God, standing then at the edge of the forest, on a spot where for ages the giant trees had shut out the light of day. That forest has been driven back, and dwellings and gardens, streets and public edifices, occupy its place.

You have not only maintained your church and its minister, enlarged its accommodation, and fitly adorned it as the House of God, but under your able and indefatigable Rector, Mr. Shephanks, you have seen an earnest and increasing congregation, to which the light of the Gospel, we may believe, has not been manifested in vain.

I am rejoiced to find a second church nearly ready for consecration, which I confidently expect will be a means of strength and blessing amongst you.

I cannot refrain from noticing the remarkable circumstance that New Westminster is about to be a centre of communication with the utmost ends of the world. The Telegraph is on the point of being fixed here, with extensions Southward to California, and probably South America; Eastward, by British America, to the Atlantic and Europe; and Westward, by the Pacific and Asia, to Russia. Let it be our hope and endeavour that New Westminster may be also a centre of civilization, and from it be sent forth to other lands the message of the Gospel.

One of my efforts in England has been to endeavour to effect a division of this vast Diocese, by which would be secured the full organization of the Church in this city as a centre. I hope this object will be carried out ere long, in such a way as may tend to the glory of God, the good of the community, and the extension and efficiency of the Church of Christ.

Let me conclude by expressing my sincere wishes for your happiness and prosperity.

#### A Road to Yale.

Mr. Edmon, it is matter of regret that whenever an important road is projected up starts local interest, and a squabble ensues respecting the best route, every one viewing the question solely from his own little paddock.

Hitherto the important question of selecting a route for a main road has been more or less decided by private caprice or local interest. I might refer to the present great trunk road of the colony. A charter was obtained, and the particular route was left very much in the hands of the gentleman holding that charter. What was the result? The road was run many miles out of the way in order to strike the farm of the highest bidder, the distance between the Junction and Soda Creek has been made nearly if not quite 70 miles longer than there was any occasion for, and even now a grant has been made from the public chest for the purpose of cutting off one of these long detours. Although the location of this road was largely left to the

caprice of the party who built it, yet the Government has taken it off his hands, with all its crooks and turns, upon terms highly remunerative to the shrewd projector. But I had almost forgotten the subject upon which I intended to write—the proposed road on the Lower Fraser.

I have read a recent article which appeared in your paper upon the subject, and I have also read a long letter in the columns of your local contemporary, commenting upon that article. The former recommends the carrying of the road all the way up the north side of the Fraser and the latter suggests it should go up the north side as far as Langley or, perhaps, St. Mary's, and, crossing there, keep the south side up to Hope. It is an awkward circumstance that the writer of the letter in question that he owns property on the north side a little below Langley, and, again, on the south side above Langley, and that if the road were located according to his plan it would, strangely enough, tap the two properties! I would not insinuate for a moment that Mr. Ross had that in his mind when he wrote the letter in question, but I merely allude to it as placing him in a rather awkward position before the public.

So far as the merits of the question are concerned I am inclined to differ with both schemes, and think the road should go up the north side as far as Harrison River and cross there. It would thus pass through an extensive agricultural district on both sides, while it would meet the demands of the Douglas route more fully than by crossing at a lower point. There is much exaggeration in Mr. Ross' letter as to the engineering difficulties above Harrison; yet I do think it would be both cheaper and better to cross there. But neither Mr. Ross nor your correspondent, nor even yourself, Mr. Editor, will decide the route. I feel satisfied that our present Government will carefully and impartially select the best route.

THE STR. "UNION," in the employ of the California State Telegraph Company, arrived here on Sunday, and left yesterday morning for Seattle, via Victoria.

CLEARED.—The General Harney cleared on Saturday, with a cargo of lumber from the B.C. Mill Co.'s mills.

CUSTOMS RECEIPTS for week ending Saturday, 1st April, 1865: Duties, £1072 0 6; harbor dues, £19 6 2; headmoney, £80 8; tonnage dues, £33 15. Total, £1205 9 8. Number of passengers entering at this port during same period, 402.

**ALL CURES MADE EASY!!**  
**HOLLOWAY'S OINTMENT.**

**Bad Legs, Ulcerous Sores, Bad**

**Breasts and Old Wounds.**

No description of wound, sore, or ulcer can realize the  
healing properties of this excellent Ointment. In  
the worst cases readily assume a healthy appearance when  
ever this medicament is applied; sound flesh springs  
up from the bottom of the wound, inflammation of the  
surrounding skin is arrested, and a complete and per-  
manent cure quickly follows the use of the Ointment.

**Piles, Fistulas and Internal Inflammation.**

These distressing and weakening diseases may with  
certainty be cured by the sufferer themselves, if they  
will use Holloway's Ointment, and closely attend to the  
printed instructions. It should be well rubbed upon the  
neighbouring parts, when all obnoxious matters will  
be removed. A poultice of bread and water may some-  
times be applied at bed time with advantage; and more-  
over, scrupulous cleanliness must be observed. If those who  
read this paragraph will bring it under the notice of  
each of their acquaintances whom it may concern, they  
will render a service that will never be forgotten, and  
a cure is certain.

**Rheumatism, Gout & Neuralgia.**

Nothing has the power of reducing inflammation and  
subduing pain in these complaints in the same degree  
as Holloway's cooling Ointment and purifying Pills.  
When used simultaneously they drive all inflammation  
and depravities from the system, subdue and remove  
all enlargement of the joints, and leave the sinews and  
muscles lax and uncontracted
